## American Psychiatric Association Discovers Its Members Have New Disorder:

### GenderPatho-Philia

"an unnatural need to pathologize any gay trans person whose gender behavior makes you feel uncomfortable"

**Did you know...**

the APA's uses Gender Identity Disorder (GID) to inflict "corrective treatment" on *non-complaining* "sissy boys" and "butchy girls" as young as 2 or 3 years old?

**Did you know...**

Daphne Scholinski, in locked wards from 14-18 with GID, says "Most people die after they get out. The recovery from the system is what gets people in the end. Life expectancy of my friends is pretty low. Most of my friends are dead."

**Did you know...**

if an APA member wants a Breast Job or Nose Job, they're "normal," but if a transperson wants a "Genital Job," the APA says they have a "mental disease."

**Did you know...**

GID sustains the stigmatization of gender-difference as *deviant* and *abnormal* which is fueling gender hate crimes and queerbashing.

## HEY APA!

### Get Your Diagnoses

### Off Our Bodies and Off Our Kids!!!

We're not quiet.  
We're not well-behaved.  
And we're not going away!

*The Transsexual Menace*: Just your average group of guys in dresses and women in pants with poor impulse control and really bad attitudes.
